Civilek vagy szakemberek?

Budapest Nephrology School

Egy szakma újjáépítésének anatómiája és tanulsága

Dr. Rosivall László

Széchenyi és Khwarizmi díjas professzor

Semmelweis Egyetem Kitérleti Intézet
Elméleti Doktori Iskola

Nemzetközi Nephrológiai Kutató és Képző Központ
Teheráni Orvostudományi Egyetem

Igaz történet – Működő modell

Megfigyelés / megoldandó feladat

80-as évek: egykor világhírű hazai vesegyógyászat eltűnőben - súlyos következmények

Megoldási stratégia

Magyar Vese-Alapítvány (1987), II. Világháború utáni első jótékonyiségi alapítvány (Ötlet újság: „ötlet embere”)

Következmény

Függetlenség, szakmailag és anyagilag is „szabad” működés

Eredmény

Ma a Budapestet ismét a világ nephrologiai hálózatának közismert központjaként ismerik, illetve elismerik

Magyar Vese-Alapítvány munkássága

A. Új, jól képzett nephrologus generáció felnevelése:

1. Együttműködés / szerződés kötés nehrologiai továbbképzésekre,
Torontoi, Alabamai (UAB), Vanderbilt Egyetemekkel
2. Kutatói és utazási ösztöndíjak
3. **Elismerések, díjak alapítása**
4. **Budapest Nephrology School (BNS) létrehozása, 1994-**
5. Új, kötelezően választható **nephrologiai kurzus (NK)** indítása, 1993-
6. **Nephrologiai PhD program** akkreditálása, 1994
7. **Egyetemi Nephrologiai Hálózat (NH)** létrehozása, 1994
8. **Nemzetközi Nephrologiai Képző és Kutató Központ (NNKKK)**
megalapítása, 2014
9. **Nephro-Physio-Pathophysio-Pathologiai Tea (NPPPT)**, 2015

B. Egyéb nephrologiai feladatok:

1. **Betegek és a társadalom oktatása**, speciális oktató anyagok,
2. **Vese Világ Napja** (2005)
3. Nemzetközi (európai, világ) társasági feladatok, megbízások (**IFKF, ISN, ERA-EDTA**, stb.)
5. **Folyóiratok** szerkesztése, Physiology International, International Nephrology, Hypertonia és Nephrologia, stb.
6. **Cikkek, szakkönyvek**, ismeretterjesztők (magyar, angol)

C. Egyéb fontos feladatok ellátása:

1. **Cigány Orvosképzési** program, 2011-
2. **Orvosi jelnyelv**, 2012-

A Budapesti Nephrologia Iskola / Magyar Vese-Alapítvány eredeti célja:

- **A hazai és a regionális vesegyógyászat újjáélesztése**
- Nemzetközileg ismert budapesti **nephrologiai központi szerep visszaállítása**
- **Nemzetközi kapcsolatok építése, erősítése**
- **Tanítva tanulni, új szakértő, oktató generáció kialakítása**
- **A hazai kimagasló nephrologiai történelem és hagyományok bemutatása**
- Új típusú, **holisztikus megközelítésű oktató - képző fórum** létrehozása

A 24. BNS megnyitó előadása, hogy megérezzék annak

1. Céljait
2. Hangulatát
3. Struktúráját
4. Eredményeit
5. Visszajelzéseket

30th Anniversary of the Hungarian Kidney Foundation

Welcome to Budapest Nephrology School

You are really lucky!

There are real and dangerous wars in the World

We, however, have the privilege and joy to deal with science and nephrology

What is the BNS?!

- Regular cultural and professional event
- International get-together for a quarter of century
 - to enjoy nephrology
 - to build networks
 - to meet the opinion leaders
 - to discover Hungarian hospitality

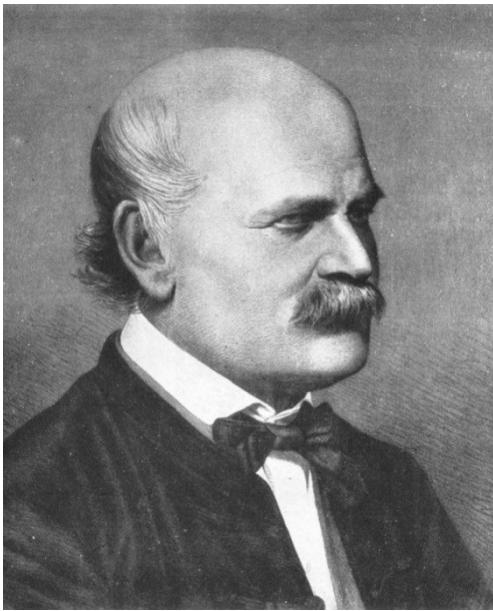

Where are you?

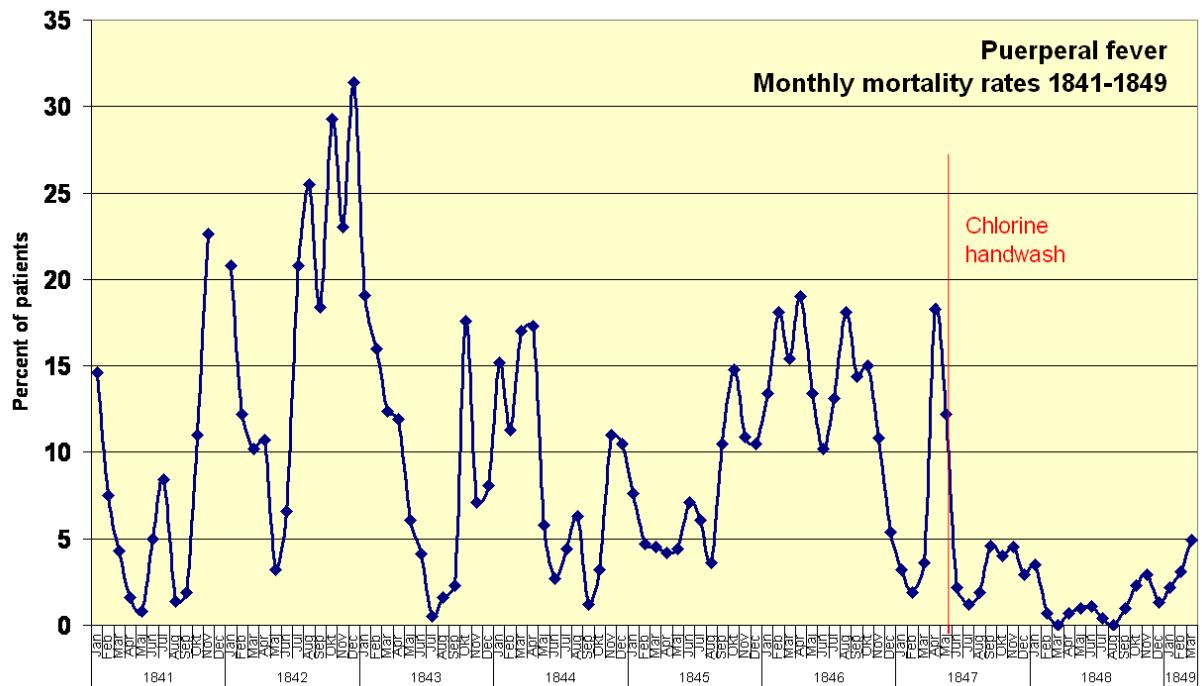

Semmelweis University

200th anniversary of his birth!

Ignaz Semmelweis
1818-1865

Puerperal fever mortality rates (Vienna Maternity Institution 1841–1849). Rates drop when Semmelweis implemented chlorine hand washing 1847.

- United Nations Educational, Scientific and Cultural Organization (UNESCO) has included the 150th anniversary of Ignaz Semmelweis' death in the list of notable anniversaries celebrated in 2015.
- The printed materials on the discovery of the causes of childbed fever (1847-1861) was inscribed in UNESCO's Memory of the World Register

Why the kidney is such a special organ with long history!?

Relief from the tomb of Tepemānkh (Djadjaemankh), ca. 2700 to 2200 BCE.
Louvre Museum, Paris, France.

Among the list of funerary offerings, fat around the kidneys is shown in the boxed hieroglyph.

The importance of the kidney, history

Kidneys in the Bible

The „kidneys” used to signify the center of feeling, awareness, such as joy or pain (Job 19: 27; Isa.11: 5; Rev. 2: 23).

Jeremiah 17:10.

I the Lord search the heart, I try the kidneys, even to give every man according to his ways, and according to the fruit of his doings.

Psalms 26:2

Examine me, O LORD, and prove me; try my kidneys and my heart.

**In Chinese and Japanese medicine in middle age:
Kidney is the Gate of Life, Gate of Vitality, Yin and Yang**

Where are you!?

Middle of Europe

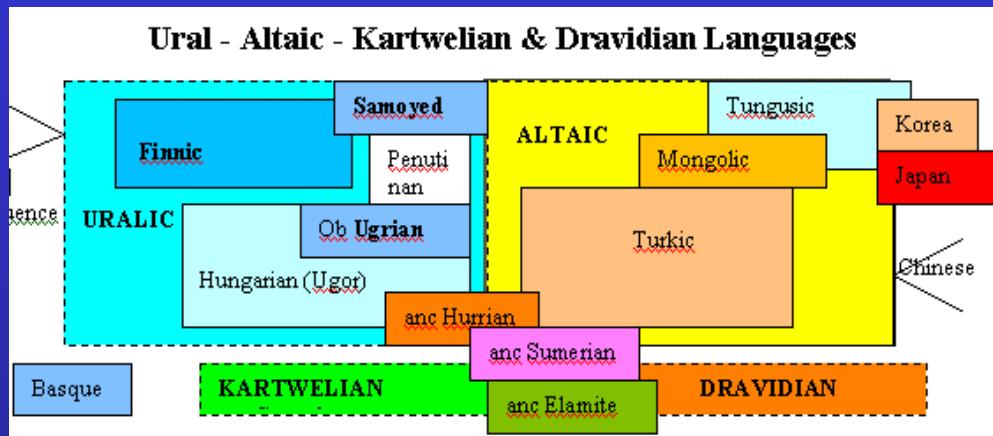

Territory: 93 000 km²

Population: 9,9 million (demographic ratio <1)

Population density: 109 person/ km²

Official language: Hungarian (Finno-Ugrian)

Hungarian language

„Are you aware that there is a language that because of its constructive ability and the harmony of its rythm I have placed on the same level as Greek and Latin? It is the Hungarian language! I know the poems of the new Hungarian poets and their musics has completely enchanted me. Keep your eyes on future developments and you will witness such an upsurge in poetic genius, which will totally justify my prediction”

*Cardinal Giuseppe Mezzofanti (1774 – 1849)
Watts transaction of the Phylological Society 1855*

Why Hungary is the most appropriate place for BNS?!

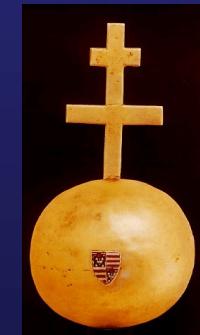

Established 896, The first Christian King was coronated in 1001.

St. Stephen (970-1038)

„sacred crown”

Hungarian coronation jewels

St. Stephen, King of Hungary

(969-1038)

advices to his son:

How One Can Become a Successful King?

„The one language country is very weak. Please invite foreigners, make them settle down. Their knowledge will increase your power.”

The philosophy of BNS is the same!

- Hungarians are good not only in science, but in sport too!
- Hungary has won more Olympic medals than any other nation that has never hosted the Games.
- Historical rank: **gold medal 8th**, all medals 12th

- History of the **Hungarian Nephrology**
- Strong start at turn of 19th/20th century

von Sándor Korányi

1866 - 1944

FIRST:

- applied freezing point reduction to measure osmotic activity of urine
- measured renal function by concentrating ability
- coined the term „renal insufficiency” and hypostenuria

- Brake in further development of nephrology at eighties
- Establishment of Hungarian Kidney Foundation 1987

Establishment of Hungarian Kidney Foundation

The 1st charity foundation in Hungary after the II World War

Established: 30 years ago!

In 1987 by Laszlo Rosivall

Type:

Charity, public foundation

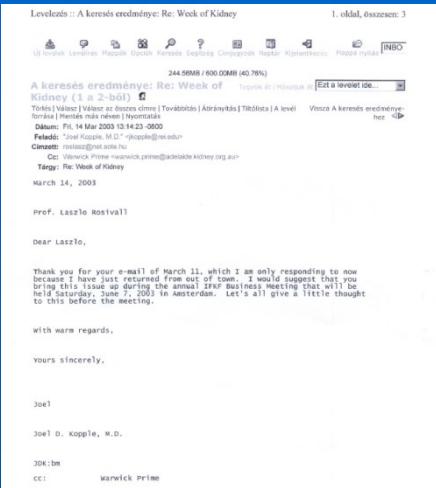

Aim:

To support the development
of education, research and
clinical practice of nephrology

Strategic plans:

- provision of **grants** by applications
- establishment of **Nephrology Research and Training Centre**, 1990
- **academic nucleus** by inter-departmental network
- **training** young talented nephrologists at international levels
- establishment of **PhD program**, 1993
- establishment of an **international CME course, BNS**, 1994
- establishment of **Awards**

The original proposal for the establishment of World Kidney Day

11/03-2003

Sincerely yours,

Laszlo Rosivall

Special postgraduate education with the help of Hungarian Kidney Foundation

Aims:

- Revitalization of nephrology
- Regaining regional leadership
- Support and establishment of a new professional generation

Some of the results:

- Accredited Nephrology PhD program with 61 PhD degrees so far granted
- Worldwide recognized CME course for 24 years
- Establishment of the International Nephrology Research and Training Center
- International recognition, awards, invitations, etc.

The 'Thomas Andreoli', 'Eberhard Ritz' and 'Gerald Schulman Scholarship' of the Hungarian Kidney Foundation

Thomas Andreoli Scholarship: Zivojin Stevanovic

Eberhard Ritz Scholarship: Vladimir Kruzljak

Gerald Schulman Scholarship: Ahmed Emara

Founding document - 15 April, 2017

With the support and full agreement of its advisory, as the president of the Hungarian Kidney Foundation, the Foundation creates three scholarships on the occasion of its 30th anniversary, in order to further enhance the participation at its internationally renowned initiative, the Budapest Nephrology School. The grants mean a full or partial reimbursement of the travel costs, support for the registration fee, and the costs incurred during the stay in Budapest. The maximum amount of the grants is 1.000 Euro. The exact amount, proportion and name of the grants will be determined by the Hungarian Kidney Foundation at all times. With the names of the scholarship I would like to pay tribute to the memory of our great masters, Professors Thomas Andreoli, Eberhard Ritz and Gerald Schulman who took an active part in our CME from year to year right from the beginning.

Accreditation

The 24th Budapest Nephrology School, Budapest, Hungary, 26/08/2017-31/08/2017 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 32 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

The Course includes 45 scientific lectures and a final examination which can be locally evaluated according to national standards (in Hungary it is equal to 50 CME credits).

24th Budapest Nephrology School (Budapest, Hungary, 26-31.08.2017) has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists.
24th Budapest Nephrology School is designated for a maximum of, or up to 32 European CME credits (ECMC). Each medical specialist should claim only those credits that he/she actually spent in the educational activity.
The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.
Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credits to AMA credit can be found at www.ama-assn.org/gis/internatcme.
Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

Commentary

“This course has changed the way I practice Nephrology now! It was great fun to be a part of this course and I am sure that with the amazing faculty, it will continue to be the leading course for young Nephrologists all over the world!”

„Great work, worth to recommend to colleagues.”

“What a great school and great decision I made this year, I will come back!”

“The BNS provides an opportunity to meet “up close and personal” with nephrology greats in an informal atmosphere. I personally found it very enriching.”

Participants

„...., it is a pleasure for the International Society of Nephrology to recognize the tradition established by Dr. Rosivall and his colleagues in the heart of Europe, servicing so many colleagues in their quest for knowledge. Experts from various parts of the world have contributed to render the Budapest School into one of the best of its kind. We congratulate Dr. Rosivall on this momentous achievement.”

Jan J. Weening, Past President of ISN

„As a President of ERA-EDTA association I’m very proud that our Society is a sponsor of the Budapest Nephrology School that next year will celebrate the 10th Anniversary. The best comment about the quality of this school come from a letter I received from one of the participants at last school “I was fortunate to be one of the sponsored delegate by the ERA. I do not have any words to express my sincere gratitude to the ERA and especially you for considering me for the grant from ERA.” I do believe there are no other words to add!”

Francesco Locatelli, Past President of ERA-EDTA

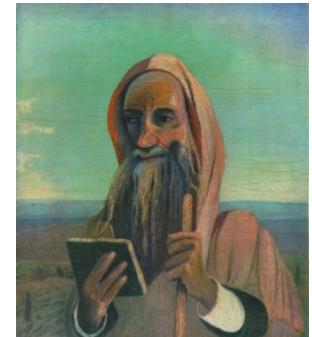

„The Semmelweis University under the dedicated leadership of Professor Rosivall has developed the tradition of an annual Nephrology Summer School in Budapest... The panel of experts is impressive and has included some of the top leaders of nephrology in the world. In recognition of the high standard of this meeting, both the International Society of Nephrology (ISN) and the European Renal Association (ERA) co-sponsor this important event.”

Eberhard Ritz, Past President of ISN

„Thank you very much for inviting me to this beautiful city. Congratulation for this 20th anniversary and also for the perfect organization. The topics and the audience are great, the discussion more than lively. A great thing for young and old. Please go on this way!”

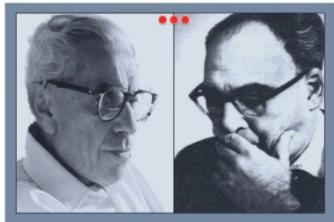

Raymond Vanholder, Past President of ERA-EDTA
